

AUSTRALIA'S MOST COLLECTED WINES 2006

wine-ark
FOR COLLECTORS OF FINE WINE

SINCE 1999, WINE ARK has been providing a range of services to collectors of fine wine, its state-of-the-art cellars setting international benchmarks. In June 2006, a full stocktake of every wine in Wine Ark-managed cellars – representing more than 3500 private wine collections – was carried out in order to determine the total number of bottles in storage. Each label was then ranked according to these totals to work out which are Australia's Most Collected Wines. The top 50 are shown here.
