Dear John and Mark

My writing is to thank you very much for your assistance while I was at wine-ark. With very few complications, from my point of view, you made my operation function very well.

I was particularly happy working with everyone there as everything was done in such a courteous and respectful manner. In this age of fast 'everything' and bruising egos it was a pleasure to work with efficient and such well mannered people.

I am sure our paths will continue to cross and hope that you might make it to one of my tastings.

I trust you have a Christmas party at years end and I hope this 1909 Rivesaltes might be at least an interesting curio at the table. I haven't tasted one yet but it has to be at least..... interesting.

My very best wishes to everyone there and hope you enjoy the remainder of 2008.

Kind regards
